

- ✓ ***Make Quick Adjustments***
- ✓ ***Run Several Lines***
- ✓ ***High Visibility***

Landscaping • Surveying • Fencing Concrete • Masonry

- Fits any round stake up to 1"
- Thumb screw sets the height
- Gripping teeth hold string lines securely
- String can be removed and put back up without ever losing height
- No more knots, or marks on the stake
- Safety orange coloring makes stakes much more visible

The StringAlong™ collar makes raising and lowering your string lines quick and easy. The small teeth grab and lock the string to ensure a tight line.

These collars are easily visible from a distance, unlike pencil marks and are built to last.

The unique retail display is perfect for counter tops.
