# Solar e-CLIPS™

PATENT PENDING

Surround your  
landscape with light...

## Solar Powered L.E.D. Outdoor Lighting

...that's out of sight

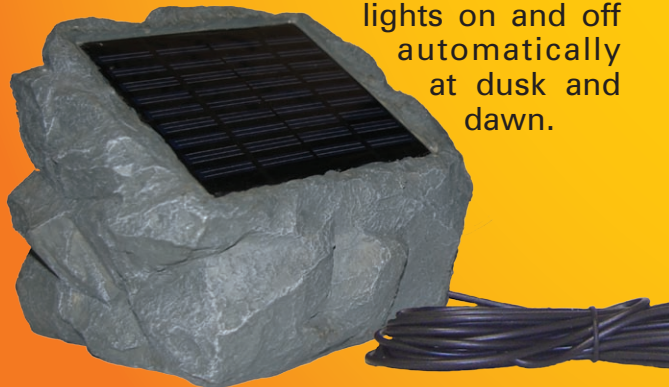

## EASY TO INSTALL

Inserts into the ground with the push of a thumb.

## SOLAR POWERED

Our patented solar rock powers the entire strand of 14 or 28 lights, allowing you to place them in areas where the sun doesn't reach. The solar panel stores the sun's energy during daylight hours, blending in flawlessly with your landscape. A photo cell turns your lights on and off automatically at dusk and dawn.

## MULTIPLE USES

## PERIMETER LIGHTING

Ideal for edging paving stone driveways, sidewalks and patios. The patented e-Clip is designed to fit perfectly onto Snapedge®, Barrier™ and Sta-Right™ edge restraints as well as most types of coiled garden edges.

## DESIGNED FOR

### DRIVEWAYS

Engineered to clip securely to Snapedge® edge restraint without additional tools or hardware.

### PATIOS & PATHS

Designed to clip securely to Barrier™ & Sta-Right™ edge restraints for patios and paths.

### PLANTING BEDS

Versatile enough to accent coiled garden edge up to 5/8" thick, aluminum edge, or simply spike in on its own.

### SEASONAL LIGHTS

A 15 ft. span from the solar powered rock to first light allows e-Clips to double as holiday lights on most homes.

### FENCES & DOCKS

Set screws (included) allow you to secure e-Clips to most surfaces such as eavestrough & fencing.

### STEPS & MORE

Solar e-Clips™ will beautify your steps and improve their safety.
