

Made In Germany

## Pave Rollers

### VPR 450 Paver Roller

No More Dust

The VPR 450 rolls gently over the material. This prevents the slabs or paving stones from shifting or from cracking or breaking on the corners and edges. Sensitive concrete slabs with a relatively low thickness can be gently vibrated and pressed into their bedding.

- 1,800 lbs. centrifugal force
- 238 lb. machine
- Base plate width: 16.5"
- Engine: Honda GX 160 4-stroke, Gasoline

2 Year  
Warranty

### VPR 700 Paver Roller

No More Dust

This machine has been designed specifically for the challenging task of compacting slabs and pavers. The VPR 700 rolls over these surfaces with exceptional ease and gentleness. This smooth mode of operation embeds the product properly, while preventing shifting, cracking and chipping.

- 3,150 lbs. centrifugal force
- 385 lb. machine
- Base plate width: 26"
- Engine: Honda GX 160 4-stroke, Gasoline

2 Year  
Warranty

**Compactors**
