

# Check Out These Benefits

If you love a green lawn and healthy gardens, but get frustrated trying to find the right water pressure from the side of the house, use Floa Constrictor. It works with any size hose to get full control of your water pressure from anywhere along the hose.

- Eliminates multiple trips back and forth to the tap
- Saves you water
- Easy to use
- Full variable control for infinite settings - just like a tap

# THE FLOA CONSTRICTOR

# 4 EASY STEPS

# SIMPLE TO USE

**1**

Place the sprinkler in desired position.

**2**

Slide the Floa Constrictor onto your hose in view of the sprinkler head and close valve tightly.

**3**

Turn your water tap on full.

**4**

Slowly open the valve until correct water flow is achieved. That is all there is to it. No multiple trips to the tap.

**A simple idea that really works to save you water and save you time!**
