

DESIGNED TO WORK

The lightest and strongest wheelbarrows in the industry!

TUFx wheelbarrows can be assembled in 8 minutes.

Commonly, retailers assemble the wheelbarrow for the user as it is a time consuming and sometimes tedious affair.

Typical wheelbarrows can take 2 people upward of 45 minutes to assemble.

Assembly is a breeze, but if you have any issues, just visit our website for how-to videos and other downloadable information.

TUFx wheelbarrows are ergonomically designed.

We offer a full range of easy- to-use products for homeowners, landscapers and contractors including:

- Wheelbarrows
- Hand Trucks
- Cement mixers
- Garden accessories and more...

TUFx wheelbarrows are Made in Canada.

All components of our wheelbarrows are made to the highest standards in our own factories either here in Canada or China. Parts and accessories are stored in our multiple warehouses ready for quick delivery.

Uniquely designed wheelbarrows that work as hard as you do

Quality starts with the materials – to maintain consistent performance, TUFx use best in class ingredients to get it right.. every time.

Trays

Steel

- Deep-draw technology
 - varying thicknesses of steel create the strength and durability needed for the toughest of conditions
- Powder coating
 - adds to the longevity of the products

Poly

- 100% virgin pp. (polypropylene) in the mix
 - maximum strength and durability
 - no regrind or recycled materials in our trays which is common in copies

Wheels

- Steel and poly hub options are available for all models
 - high grade nylon additives make poly hubs best in class
 - will never rust
- Top quality roller bearings on solid axles for smooth maintenance-free operation

Frames

- Powder coated or bright zinc e-coating
 - extended rust protection
- Hard maple frames available on select models

One piece frame manufactured in Canada using 5 axis CNC tube bending for unparalleled strength and consistency

Tires

- Standard 4 ply pneumatic tires are popular
- Flat-free PU (polyurethane) tires will never puncture
 - more pliable high-grade PU creates the same suspension effect as pneumatic tires

Tread options

- LK (large knobby) tire offers long-life rugged pattern
 - excellent for garden or construction uses
- SK (small knobby) is a wider tire with smaller tread
 - referred to as the turf tire. Heavier loads are spread over the larger tire contact patch allowing the user to traverse softer surfaces
