

## PAVER RESTRAINT – DENSE GRADE

### Snap Edge THE BEST EDGE ON THE MARKET!

- Secure your install
- Snip N flex
- Injection moulded
- Secure interlocking end joint
- 100% Recycled HDPE (high density polyethylene)
- Reinforced spike bosses
- Open base design

### Barrier Edge COMPETITIVE – COST EFFECTIVE

- High quality edge, competitive/affordable solution
- Snip N flex
- Injection moulded
- Open base design
- 100% Recycled HDPE (high density polyethylene)
- Built in solid connection

### Stronghold Aluminum

- Made of non-rusting recycled aluminum
- Hidden from view
- 90 Degree angles without cutting
- Will not warp in heat or crack in cold
- Easy to insert piece to piece connector

### Low Profile

- Perfect for natural stone slabs
- High quality edge, competitive & affordable
- Snip n flex
- Injection moulded
- Open base design
- 100% Recycled HDPE (high density polyethylene)
- Built in solid connection
- Lower 13/8" back wall

## PERMEABLE EDGE – OPEN GRADE

### PermEdge

- Fully assembled spikeless edge
- No costly concrete to pour
- No delay in project construction
- Can be installed in straight runs or curves
- Edging remains hidden after completion
- Perfect for 60mm & 80mm pavers
- Installs on stone chip permeable paver bed
- Holds permeable pavers in place

### Quick-E-Hybrid Edge

- Use with the quick-e-hybrid stake for permeable applications
- Use with a standard spike for dense grade applications
- 8' In length
- Made of aluminum
- Easy to cut and form around curves

## PERMEABLE EDGE – OPEN GRADE

### EdgeCrete

- Fiber reinforced to resist cracking
- Polymer modified for superior strength
- Simple to install – no spikes required
- Ideal for open graded base and conventional paver installations

## GARDEN EDGE

### Precision Garden Edge

Made of 100% recycled materials to produce quality edging solutions for a wide variety of landscape applications that stays in the ground. Precision Edge is the strongest, most environmentally friendly landscape edging available today.
